

Retraction: miR-135a confers resistance to gefitinib in non-small cell lung cancer cells by upregulation of RAC1

Oncology Research Editorial Office

The published article titled “miR-135a confers resistance to gefitinib in non-small cell lung cancer cells by upregulation of RAC1” has been retracted from *Oncology Research*, Vol. 26, No. 8, 2018, pp. 1191–1200.

DOI: 10.3727/096504018X15166204902353

Following the publication, concerns have been raised about a number of figures in this article. The western blots in this article were presented with atypical, unusually shaped and possibly anomalous protein bands in many cases.

The authors were contacted and invited to comment on the concerns raised and to provide the original, unmodified figures, but did not respond. The Editors-in-Chief therefore

no longer have confidence in the integrity of the data in this article and decided to retract this article.

All authors have not responded to correspondence about this retraction. As a responsible publisher, we hold the reliability and integrity of our published content in high regard. We deeply regret any inconvenience caused by this situation to our readers and all concerned parties.
